

PROSTHETIST: \_\_\_\_\_ PRO NUMBER: \_\_\_\_\_ Date: \_\_\_\_\_

**MEASUREMENTS** (ALL MEASUREMENTS SHOULD BE TAKEN OVER BANDAGES, SOCKS, ETC.): **RESIDUUM: Left \_\_\_\_\_ Right \_\_\_\_\_**

**LENGTH MPT TO DISTAL END:** \_\_\_\_\_ in/cm (shorter than 4" or longer than 8 1/4" without bandages requires custom-made sockets)

**CIRCUMFERENCES: MPT \_\_\_\_\_ in/cm 2" UP FROM DISTAL END \_\_\_\_\_ in/cm** (Choose size based upon distal circ.)

*Sockets are automatically sized to provide the ideal anatomic knee circumference for the socket size ordered.* **Custom:** \_\_\_\_\_

Use the following sizing information for selecting APOPPS® sockets for your patient. Each of these sockets is a one-piece, polyethylene, clamshell design with anatomically trimmed overlapping sides, ideal for: accommodating bulbous, straight or conical shapes and gently reducing the residuum throughout the rehabilitation period and for weight bearing when used in conjunction with the UFOS™.

- ☞ The FLO-TECH-TOR™ is used as a prosthetic socket and for early supervised weight bearing prosthetic management of trans-tibial amputations.
- ☞ The VCSPS™ in conjunction with the UFOS™ is used for preparatory prosthetic management of trans-tibial amputations when unlimited knee motion is desired.
- ☞ The UFOS™ is an external frame outer socket used to attach the pylon and foot system. It is sized to match the FLO-TECH-TOR™ or VCSPS™ sockets. This allows your patient to wear the FLO-TECH-TOR™ or VCSPS™ sockets alone when the pylon and foot are not needed.

**The APOPPS® Program is designed to maintain a healthy amputation throughout the rehabilitation process.**
