

APOPPS®

Adult 9" Length Trans-Tibial Measurement Form Date: _____

PATIENT: _____ PROSTHETIST: _____ PO NUMBER: _____

MEASUREMENTS (ALL MEASUREMENTS SHOULD BE TAKEN OVER BANDAGES, SOCKS, ETC.): **RESIDUUM:** Left _____ Right _____
LENGTH MPT TO DISTAL END _____ in./cm (shorter than 4" or longer than 8 1/4" without bandages requires custom-made sockets)

CIRCUMFERENCES: MPT _____ in./cm **2" UP FROM DISTAL END** _____ in./cm (Choose size based upon distal circ.)

Sockets are automatically sized to provide the ideal anatomic knee circumference for the socket size ordered. Custom: _____

Use the following sizing information for selecting APOPPS® sockets for your patient. Each of these sockets is a one-piece, polyethylene, clamshell design with anatomically trimmed overlapping sides, ideal for: accommodating bulbous, straight or conical shapes and gently reducing the residuum throughout the rehabilitation period, and for weight bearing when used in conjunction with the UFOS™.

- ☛ The FLO-TECH-TOR™ is used as a prosthetic socket and for early supervised weight bearing prosthetic management of trans-tibial amputations.
- ☛ The VCSPS™ in conjunction with the UFOS™ is used for preparatory prosthetic management of trans-tibial amputations when unlimited knee motion is desired.
- ☛ The UFOS™ is an external frame outer socket used to attach the pylon and foot system. It is sized to match the FLO-TECH-TOR™ or VCSPS™ sockets.

The APOPPS® Program is designed to maintain a healthy amputation throughout the rehabilitation process.
